

Year 11 GCSE & Vocational Results - 2019

Our Year 11 students and staff have achieved another excellent set of GCSE results this year with 244 students completing their exams.

Overall, 74% achieved 5 or more GCSEs level 9 - 4 (including English and Maths), allowing the vast majority of students to be accepted on to the Sixth Form courses that they wished to follow.

Mr Richard Pilgrim, Headteacher, said "Our year eleven students have worked extremely hard and should be proud of their achievements. We have seen some spectacular individual performances and I wish all the young people in the year group every success in their future careers, whether at Charters or elsewhere."

Charters student, Charlotte Paine said, "I'm really happy and would like to thank all my teachers for being such great role models". Charlotte obtained 11 GCSEs, all at the top grade 9 plus an A* in Further Mathematics. She was one of only 120 students out of 700,000 in the country to gain such an outstanding set of results.

Headline Figures

Number of students: **244**

- Progress 8 score (provisional): **0.3**
- Attainment 8 grade: **54.9**
